

MSDC CORPORATION

PRODUCT CATALOGUE - 2027 EDITION

Mining Operations & Site Support

Cleaning, camp hygiene and protective equipment for mining operations.

YOUR SUPPLY PARTNER

About MSDC

MSDC Corporation brings together maintenance cleaning products, camp hygiene supplies and protective equipment for mining facilities. This catalogue connects the existing product range to workshops, service buildings, kitchens, washrooms and camp operations, with a separate project-specification section for processing and water treatment.

MSDC SANI

Cleaning, sanitation, hand hygiene and odour control for maintenance crews, service buildings and camp facilities.

CAMP LAUNDRY

Laundry-detergent requirements for camp linens and suitable workwear. Confirm the formulation, equipment compatibility and technical documentation with your enquiry.

MSDC SUPPLY

Chemical-handling and cut-resistant gloves, hearing protection and rubber safety footwear, plus food-handling apparel and disposables for camp teams.

One point of contact for product selection, documentation, formats and delivery. Send your application and purchasing requirements to info@msdccorp.com or costa@msdccorp.com.

Current labels and safety data sheets (SDS) govern use. Packaging images illustrate the MSDC range. Formats, availability and lead times are confirmed at quotation. DIN references identify the named registered products and do not establish approval of a different private-label presentation.

MSDC SANI

Maintenance cleaning & degreasing

Match the cleaner to the soil and surface. Use the product-specific directions.

FOAM GUARD

FOOD-CONTACT RINSE REQUIRED

Alkaline chlorinated foaming cleaner & sanitizer

Concentrated foam for grease, grime and stubborn soils; clings to vertical surfaces for extended contact.

Use: Camp-kitchen walls, floors and food-preparation equipment, as directed.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Clean: 1-5% (10-50 mL/L). **Sanitize:** 1.5% (300 ppm available chlorine). Allow at least 10 min, then rinse. Rinse food-contact surfaces with abundant potable water before reuse.

ULTRA FOAMING DEGREASER

GENERAL & HEAVY-DUTY CLEANING

Heavy-duty foaming degreaser

Concentrated, high-foam degreaser for grease, oil and grime. Clinging foam supports cleaning on vertical surfaces.

Use: Workshop equipment, compatible floors, walls and mechanical parts, as directed.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

General: 3% (30 mL/L). **Heavy duty:** 5% (50 mL/L). **Mechanical parts:** 10% (100 mL/L). Rinse food-contact surfaces with potable water before reuse.

SHINY

FLOOR CLEANING

Foaming floor cleaner & degreaser

Heavy-duty, medium-foaming cleaner for grease, oil and floor soils.

Use: Routine and heavy-duty cleaning of compatible workshop, service-building and camp floors.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Use a 1-5% solution (10-50 mL/L) in water at 40-50 °C, according to soil level. The supplied technical sheet does not specify a contact time or rinse procedure; follow the product label.

MSDC SANI

Acid cleaning & descaling

SCALE F targets mineral deposits and organic soil.

SCALE F

High-foaming acidic cleaner & descaler

Concentrated phosphoric-acid-based cleaner with detergents, surfactants and solvents for mineral scale, lime, rust stains and organic soils.

Use: Washroom bowls, urinals, porcelain and tile; equipment descaling only under the supplier's instructions.

Formats : 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS FOR BOWLS & URINALS

Apply directly to the surface, or apply 1-2 oz to a cleaning mop or brush and swab the area. Allow brief contact, then flush. Follow the current label for personal protection, material compatibility and handling.

FOOD-EQUIPMENT APPLICATIONS

The supplier sheet lists food-establishment descaling uses, but does not provide equipment dilution, contact time or rinse instructions. Request the specific procedure before use on food-contact equipment.

PRODUCT PROFILE

Phosphoric-acid-based foaming cleaner. Clear liquid. Supplier technical data: pH 2.50 ± 1.00 at a 1% solution.

MSDC SANI

Hard-surface sanitation & camp kitchens

Select by task. Follow each product's own dilution, contact time and rinse requirements.

ATO QUAT

DIN 02243658 / FOOD-PREMISES DISINFECTANT

Concentrated disinfectant & sanitizer

Neutral-pH quaternary-ammonium formula for hard, non-porous surfaces, with mould-control applications.

Use: Pre-cleaned hard surfaces in camp kitchens, washrooms and shared facilities, as labelled.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Disinfect: 5 mL/L (500 ppm quat); keep wet at least 10 min. Rinse food-contact surfaces with abundant potable water.
Sanitize: 2 mL/L (200 ppm quat); no rinse at or below 200 ppm.

ACI QUAT

DIN 02244321 / FOOD-PREMISES DISINFECTANT

Acidic cleaner & disinfectant

Foaming acid-based formula for hard, non-porous surfaces. Removes mineral deposits, scale and rust stains.

Use: Stainless-steel camp-kitchen equipment and tanks; manual or circulation application as directed.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Pre-clean. For the published sanitizing procedure, use 10 mL/L (500 ppm quat). Wet surfaces for 10 min, then rinse with abundant potable water. Make fresh solution for each use and discard after use.

LOXI

FOOD-CONTACT SANITIZING DIRECTIONS

Peracetic-acid sanitizer concentrate

Non-foaming blend of peracetic acid, hydrogen peroxide, acetic acid and water for previously cleaned equipment.

Use: Pre-cleaned camp-kitchen food-contact equipment, tanks and circulation systems.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Circulate 3-4 mL/L (0.3-0.4%) at 5-40 °C for at least 60 seconds. Drain; do not rinse. **Never mix with chlorinated products.** Follow the supplied product label for materials and storage.

MSDC SANI

Washrooms, drains & grease traps

Facility cleaning and odour management for washrooms, drains and waste areas.

TRAPPEDODOR

DRAINS & WASTE AREAS / GENERAL FACILITY

Biological grease-trap & drain odour solution

Bacterial treatment supports breakdown of fats, oils, grease and organic residues while controlling drain and waste-area odours.

Use: Camp-kitchen grease traps, floor drains, interceptors and waste containers.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Grease traps and drains: 500-600 mL daily. **Garbage containers:** 600 mL daily. **Compactors:** 500-600 mL daily. Use for facility maintenance; keep application and storage clear of food.

ALL PURPOSE BATHROOM CLEANER

TECHNICAL SPECIFICATION ON REQUEST

Washroom cleaning

An all-purpose bathroom-cleaner option for facility washrooms. Request the technical specification to match the cleaner to your surfaces.

Use: Camp and service-building bathroom fixtures and surfaces approved by the supplied label.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Product-specific dilution, contact time, compatible materials and rinse instructions are supplied with the technical sheet. No disinfectant or food-contact claim is made here.

Send MSDC the surface type, soil or odour issue, equipment and cleaning frequency. We will confirm the appropriate technical sheet and SDS with your quote.

MSDC SANI

Camp & facility odour control

Three fragrances for facility odour control. Follow the supplied product label.

CHERRY FRESH

DEODORIZING / NO REGISTERED DISINFECTANT CLAIM

Concentrated deodorizer

Neutral-pH deodorizer with a cherry fragrance for unpleasant odours in general facility areas.

Use: Camp washrooms, waste rooms, urinals, drains and compatible floors/carpets.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Deodorizing: 1 part product to 10 parts water for air freshening; 1 part to 80 parts cleaning solution for floors/carpets; undiluted for urinals and drains. Rinse food-contact surfaces with potable water and do not contaminate food.

APPLE FRESH

DEODORIZING / NO REGISTERED DISINFECTANT CLAIM

Concentrated deodorizer

Neutral-pH deodorizer with an apple fragrance for unpleasant odours in general facility areas.

Use: Camp washrooms, waste rooms, urinals, drains and compatible floors/carpets.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Deodorizing: 1 part product to 10 parts water for air freshening; undiluted for urinals and drains. Confirm floor/carpet dilution on the supplied label. Rinse food-contact surfaces with potable water and do not contaminate food.

CITRUS FRESH

DEODORIZING / NO REGISTERED DISINFECTANT CLAIM

Concentrated deodorizer

Neutral-pH deodorizer with a citrus fragrance for unpleasant odours in general facility areas.

Use: Camp washrooms, waste rooms, urinals, drains and compatible floors/carpets.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Deodorizing: 1 part product to 10 parts water for air freshening; 1 part to 80 parts cleaning solution for floors/carpets; undiluted for urinals and drains. Rinse food-contact surfaces with potable water and do not contaminate food.

MSDC SANI

Hand hygiene

Hand soap and hand sanitizer serve different steps in your hygiene programme.

FOAMY

HAND WASHING / RINSE WITH WATER

Alcohol-free foaming hand soap

Foaming hand cleanser for frequent washing. Removes dirt and grime; formulated for sensitive skin with a pleasant fragrance.

Use: Hand-wash stations in camp kitchens, washrooms and service buildings.

Formats: 3.78 L / 20 L; 205 L / 1,000 L on request

DIRECTIONS

Ready to use. Apply to hands, rub well and rinse with water. Use in a compatible foaming dispenser. Follow the supplied label and your site hand-hygiene procedure.

ANTI-MICROBE M

DIN 02502178 / TOPICAL HAND ANTISEPTIC

Alcohol-free foaming hand sanitizer

Fragrance-free hand sanitizer with 0.15% benzalkonium chloride and neutral pH. Used separately from hand soap.

Use: Label-approved hand-sanitizing locations in camps, offices and common facilities.

Formats: 550 mL foam pump (pack of 4) / 3.78 L

DIRECTIONS

Ready to use. Apply and rub hands according to the current product label. The reviewed supplier page does not specify a dose or rubbing time; follow the labelled directions.

MSDC SANI / LAUNDRY REQUIREMENTS

Camp laundry

Laundry detergent for camp operations: confirm the product before ordering.

LAUNDRY DETERGENT

A laundry-detergent addition for camp linens, towels and compatible workwear. The exact supplier formulation and commercial formats are to be confirmed.

APPLICATION

Camp laundry rooms and compatible commercial washing machines. Identify textile types, soil levels and the machine or dosing system before product selection.

DIRECTIONS

Use only the selected detergent’s label and technical sheet for dosing, cycle temperature, water hardness and wash-load guidance. No operating dose or performance claim is specified until the formulation is confirmed.

INFORMATION TO PROVIDE

Number and type of machines; average loads or kilograms per day; water hardness; manual or automatic dosing; fabric types; storage and delivery requirements.

FORMATS & DOCUMENTATION

Request available formats, the product label, technical sheet and SDS with your quotation. Confirm suitability separately for flame-resistant, high-visibility or other specialist protective garments.

PROJECT SPECIFICATION

Processing & water treatment

Define the application before selecting a treatment product.

Use this section to submit a processing or water-treatment enquiry. Product selection, supply availability and dosing require a separate technical review. No ore-processing or water-treatment formulation is specified in this edition.

01 Solids separation & water recovery

Identify the duty: clarification, thickening, dewatering or water reuse. Provide solids concentration, particle characteristics, flow and current treatment.

02 Process compatibility

State ore/mineral type, pH, temperature, materials of construction, existing reagents and the performance target. Include relevant water or slurry analyses.

03 Treatment validation

Request supplier product data, SDS, compatibility review and bench or pilot testing as appropriate. Operating dose and environmental acceptance must be established for the actual site.

04 Site logistics

Confirm monthly demand, packaging, storage temperature, transfer and metering equipment, delivery access and waste or discharge requirements.

Cleaning dilutions elsewhere in this catalogue apply to labelled cleaning applications. They are not process-water or ore-treatment dosing instructions.

MSDC SUPPLY / WORK & CAMP PPE

Maintenance gloves, hearing & boots

Wayne Safety products supplied through MSDC Supply. Codes identify the requested model.

AlphaTec SOL-VEX Nitrile Gloves

SKU 37-145

Unlined green nitrile, 11 mil; approximately 13-inch length.

Use: Chemical handling and food processing; select using chemical permeation data.

Order: Sizes 7-11 / pair

Supplier sheet: EN 374 Type A chemical protection; food-handling applications.

Taeki 5 Cut-Resistant Gloves

SKU T5/NIT

Nitrile palm coating for grip in dry, wet or oily conditions.

Use: Maintenance tasks with cut hazards; follow the site glove policy.

Order: S and XL listed; other sizes on request / pair

Supplier lists EN388 cut level 5; confirm the current rating for the supplied glove.

3M E-A-Rsoft Ear Plugs

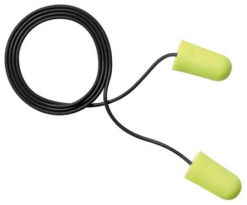

SKU 311-4106

Corded metal-detectable earplugs; each pair individually poly-bagged.

Use: Hearing protection selected for site noise and individual fit; detectable option for camp food areas.

Order: Regular size; box quantity confirmed at quote

Wayne Safety lists NRR 32 dB and CSA Class AL. Fit testing recommended.

Steel Toe Rubber Boots

SKU 9677-138

UltraFlex rubber compound; steel toe and self-cleaning outsole; acid and oil resistance.

Use: Wet service areas; select against site hazards and footwear requirements.

Order: Sizes 7-14 / pair

Supplier lists: CSA approved.

Select PPE using site hazard assessment and chemical compatibility data; apply camp food-hygiene procedures where relevant. Certifications are supplier-listed; confirm the supplied model and current documentation. Photos show representative products.

MSDC SUPPLY / WORK & CAMP PPE

Camp gloves & disposable aprons

Wayne Safety products supplied through MSDC Supply. Codes identify the requested model.

H-Ray Vinyl Gloves

SKU 525GPF

Latex-free, powder-free vinyl; rolled cuff, ambidextrous.

Use: Food handling, deli and preparation.

Order: S-XL / box of 100

Supplier lists: CFIA approved; EN374; EN455.

Diamond Touch Poly Gloves

SKU 200

Embossed virgin polyethylene for short preparation tasks.

Use: Food preparation and service counters.

Order: M, L / 100 per bag

Also listed: 200DS (100/box), 200BX (500/box).

Tuff Blue Nitrile Gloves

SKU 700PF

Powder-free 4 mil nitrile; no fillers or natural rubber latex protein.

Use: Meat handling and sanitation tasks; confirm chemical compatibility.

Order: XS-XXL / box of 100

Supplier lists: CFIA approved; Health Canada Class 2 medical device; EN374; EN455.

Disposable Poly Apron

SKU POLY-100

Lightweight polyethylene apron, 35 x 45 inches.

Use: Preparation and packaging.

Order: White or blue; pack quantity confirmed at quote

POLY-100: white. POLY-100B: blue.

Select PPE using site hazard assessment and chemical compatibility data; apply camp food-hygiene procedures where relevant. Certifications are supplier-listed; confirm the supplied model and current documentation. Photos show representative products.

MSDC SUPPLY / WORK & CAMP PPE

Camp apparel & hair restraints

Wayne Safety products supplied through MSDC Supply. Codes identify the requested model.

Latex-Free Bouffant Cap

SKU IBFW

White disposable hair covering with latex-free elastic.

Use: Hair restraint in processing and packaging.

Order: 18 (M), 21 (L), 24 (XL) inches

Case of 1,000.

Polyester Mesh Hair Net

SKU 3000

Polyester mesh hair covering in white or brown.

Use: Hair restraint in food operations.

Order: White: 18, 21 or 24 inches / pack of 100

Brown: 21-inch size listed. Confirm colour/size combination at quote.

Polypropylene Beard Guard

SKU 4400

Breathable disposable beard cover with elastic sides.

Use: Beard restraint; supplier lists food-handling use.

Order: 18 inches / one size fits most; pack quantity at quote

White: 4400. Blue: 4400-BLUE.

SMS Lab Coat, 50 g

SKU 101

White three-layer SMS polypropylene coat; snaps, elastic wrists, longer length, no pockets.

Use: Visitor and line coats; some splash resistance.

Order: S-3XL / each

Supplier lists food processing facilities.

Select PPE using site hazard assessment and chemical compatibility data; apply camp food-hygiene procedures where relevant. Certifications are supplier-listed; confirm the supplied model and current documentation. Photos show representative products.

MSDC SUPPLY / WORK & CAMP PPE

Sleeves, dispensing & wash-down PPE

Wayne Safety products supplied through MSDC Supply. Codes identify the requested model.

Disposable Poly Sleeves

SKU PE-SLEEVE

Lightweight polyethylene with elastic at bicep and wrist.

Use: Arm covers for preparation and packaging.

Order: 16 or 18 inches; colour and pack quantity confirmed at quote

16-inch: white, blue or yellow. 18-inch: white or blue listed.

Metal Glove Box Holder

SKU 100

White wire holder for standard disposable glove boxes; screws and wall anchors included.

Use: Wall-mounted dispensing at workstations.

Order: Each

Confirm box fit before ordering.

PVC/Poly/PVC Apron

SKU 104P

Yellow apron with stomach patch, 35 x 45 inches; resists fats, oils and grease.

Use: Reusable apron for cutting rooms and wash-down; confirm chemical compatibility.

Order: Unisex / each

Supplier lists food handling and preparation.

Polypropylene Shoe Cover

SKU 915B

Blue 40 g cover with patterned anti-slip sole and elastic ankle.

Use: Visitor and clean-zone shoe covers.

Order: 16 or 20 inches; pack quantity confirmed at quote

Lightweight, breathable polypropylene.

Select PPE using site hazard assessment and chemical compatibility data; apply camp food-hygiene procedures where relevant. Certifications are supplier-listed; confirm the supplied model and current documentation. Photos show representative products.
